ANNUAL PRODUCTION SALE
Wednesday - April 3, 2019
Blaine County Fairgrounds • Chinook, MT
Lunch at 11:30 • Sale at 1:00

SALE DAY PHONES

Jeff's Cell 406-949-1101
Christie's Cell 406-262-4125
Lane's Cell 406-390-2275

SALE DAY CONFERENCE CALL

Bill Pelton will be conducting a sale day conference call for any buyers that are unable to attend the sale. Please see the ad on this page for instructions.

AUCTIONEER

Roger Jacobs 406-698-7686

SPECIAL REPRESENTATIVES

Kurt Kangas 406-366-4190
Jared Murnin 406-321-1542
Bill Pelton 406-671-5100

SIGHT UNSEEN GUARANTEE

Absentee bidding can be made in confidence with any representative, the auctioneer or directly with Nissen Angus or Schmitt Angus.

We guarantee 100% satisfaction on all purchases.

INSPECTION

The bulls are on feed and available for viewing at Hould Bull Development Center, located at 5867 Hwy 363 southwest of Malta, MT. They will be available for inspection at the Blaine County Fairgrounds in Chinook, MT starting the afternoon of Monday, April 1st.

HEALTH

All bulls have been semen tested and given a complete breeding physical by Dr. Bob Schmitt of Chinook Veterinary Clinic, (406)357-2850. They are current on immunizations, have been vaccinated with Fusoguard for footrot, Maxi/Guard for pinkeye and tested negative for BVD-PI.

TERMS AND CONDITIONS

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the auction block take precedence over the information in this catalog. Settlement must be at time of sale unless prior arrangements have been made with the owners.

SALE ORDER

Bulls will sell in catalog order.

RETAINED INTEREST

Nissen Angus and Schmitt Angus are retaining 1/3 revenue share on every bull sold in this sale. This allows for the right to share in the collection of semen and the right to share semen and certificate revenue should the opportunity arise. Full possession and full salvage value sells on all bulls.

TRUCKING AND DELIVERY

We will offer free delivery within Montana on all bulls purchased. Further distances will be billed at cost.

Buyers who pick up their bulls at the sale site on sale day or the day after will be given a \$50 rebate per bull.

PERFORMANCE INFORMATION

EPDs are current as of March 7, 2019. Updated EPDs can be viewed online at www.angus.org. All bulls selling were HD50K tested and their EPDs are genomically enhanced. The spring bulls were ultrasounded for carcass merit by AAA certified technician, Sonja Gregory.

ACCOMADATIONS

Chinook Motor Inn 406-357-2248
Bear Paw Court 406-357-2221

AIRPORT

Edgar G. Obie Airport - Located on the west side of Chinook. Please call 406-357-2643 in advance to make arrangements

LIABILITY

All persons who attend the sale do so at their own risk. Nissen Angus, Schmitt Angus and all other sale staff assume no liability, legal or otherwise.

Hello Fellow Producers!

We'd like to invite you to our Annual Production Sale on April 3, 2019 at the Blaine County Fairgrounds in Chinook, MT. The bulls will be available at the fairgrounds for you to view starting on the afternoon of Monday, April 1st.

2018 proved to have many challenges – we endured one of the toughest winters on record and then before our snow had even melted, we started flooding. Despite the difficult conditions, the calves came through and performed well for us again this year. As we continue to grow our herd, we are focusing on mother cows that exhibit performance, structural correctness, strong maternal traits and carcass ability - all in a low-input, practical package. We are working hard to provide our customers with low maintenance, highly functional cattle that perform and pay in pounds. Our customer's success is a direct reflection of our program's success and we place a big emphasis on making sure our customers are happy with their purchases.

We have converted our fall calving cows to our spring program to better manage our resources. This will be our last year offering fall born bulls.

All the bulls have been parent verified, carcass ultrasounded, performance and fertility tested. To provide you with the most predictable and accurate selection tools, we have also HD50K tested every bull in our sale offering. These genomic-enhanced EPDs offer increased predictability and valuable insight for the selection process. We have continued to ultrasound our bulls for carcass merit. We feel it's important to provide that data along with all the other selection tools as it gives you a complete representation of each bull's full potential.

The bulls are on feed at Hould Bull Development Center west of Malta, MT and available for you to view at any time. The bulls have been fed a high roughage ration to ensure soundness and longevity. All have been given Fusogard to help prevent footrot, Maxi/Guard for pinkeye and tested negative for BVD-PI. Although it started out mild, this winter turned out to be brutal for everyone and we can't thank Bruce, Linda, Lance and their crew enough for the great care they gave these bulls. They are great to work with and always try to accommodate everyone's schedules and deadlines. It gives us a great peace of mind knowing our bulls are in such great hands.

Lane, Taryn and Scott Schmitt of Schmitt Angus continue to be our special guests and offer some of their own bulls for sale. Barb Korenjak of Corey A Ranch in Oregon continues to partner on some cows with us and any bulls resulting from those cows will be offered in the sale. The Schmitt and Korenjak families are good friends and we are fortunate to have the opportunity to work with them.

We are blessed to be surrounded by family and friends who support us. We could not do what we love to do without them. Sale time is one of our most favorite times of the year and it is truly a family affair. We aren't always able to get together as a family on holidays, but every year our family comes together during sale time. Everyone does their part in helping us put on the sale and it ends up being our version of holiday family time. We enjoy catching up with friends and family on sale day and invite you to join us for lunch and stay for our "friends and family" social after the sale.

Please feel free to call us if you would like additional information on the bulls or if you have any questions about our program. We love to chat - especially about our cattle and our kids. Chances are you won't hear about one without hearing about the other!

Our sincere thanks for your friendship and support throughout the years – we look forward to working with you for many years to come. Please stop by and view the sale offering and join us for lunch on April 3rd. See you then!

Jeff, Christie, Charley & Tyson Nissen

Bull Mortality & Loss of Use Insurance

Nissen Angus has arranged for
Novich Insurance Agency
to make available Mortality/Loss of Use Coverage for
Nissen Angus bulls and Schmitt Angus bulls sold in the
April 3, 2019 sale.

Donation Lot

Each year we pick a certain lot in the sale as our donation lot. We donate a percentage of sales from that lot towards a cause that is near and dear to our hearts.

Jeff lost both his parents to cancer and throughout the years, we have lost other loved ones to the disease. We have also witnessed other family members and friends battle and win their fight with cancer. We want to do our part to support the fight against cancer and finding a cure.

This year's donation lot is Lot #29

We have chosen the Blaine County Cancer Support Group as the recipient this year. The group offers a chance for survivors, caretakers and anyone that has been affected by the disease to come together and support one another. The group meets once a month and frequently has guest speakers, cancer survivors and others share their stories and experiences.

Genetics don't lie.

Introducing the new American Angus Association® feeder cattle program.

Angus LinkSM brings the world's most comprehensive genetic database to America's cow herd. The program's three simple scores identify your calf crop's genetic performance potential on the ranch and in the feedlot. Angus Link gives you the information you need to know to make your next calf crop better than the last.

Go to AngusLink.com to learn more.

ANGUSLINKSM

CATTLE GENETICS VERIFIED

Know the score.

BW: Actual birth weight expressed in pounds.

Actual WW: Actual weaning weight taken right off the cow, expressed in pounds.

Adj 205: Standardized weaning weight adjusted to calf age of 205 days and mature dam equivalent.

Adj. 365: Standardized yearling weight adjusted to calf age of 365 days and mature dam equivalent.

Scrotal: Actual scrotal measurement, expressed in centimeters, taken 2/25/2019.

%IMF: Percentage of fat in the ribeye area muscle (similar to marbling). The ultrasound field technician collects four images and the values generated by the interpreting software are averaged for an overall %IMF. Marbling directly contributes to beef palatability.

REA: Area of the longissimus muscle, measured in square inches. The trait is moderately to highly heritable and gives an indication of overall carcass muscling.

Rib Fat: An external fat measurement taken between the 12th and 13th ribs, measured in inches.

Rump Fat: An external lmeasurement taken between the hooks and pins, measured in inches. The rump fat and rib fat measurements are used to determine the overall external body fat.

		NA Miss Queen JCN 017	RUMP FAT	0.30

CED	BW	WW	Milk	YW	SC	Marb	RE	Fat	\$W	\$F	\$G	\$B
+8	+1.5	+71	+29	+122	+1.26	+0.60	+0.49	+0.044	+76.02	+83.75	+33.65	+148.30

Marb EPD: Expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

RE EPD: Expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

Fat EPD: Expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th & 13th ribs) of a sire's progeny compared to progeny of other sires.

Calving Ease Direct (CED): Expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

BW EPD: Expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

WW EPD: Expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

Milk EPD: Is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

WW EPD: Expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires

SC EPD: Expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

\$Value Indexes: Reported in dollars per head, where a higher value is more favorable.

Weaned Calf Value (\$W): Expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

Feedlot Value (\$F): Expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

Grid Value (\$G): Expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B): Expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B combines the contributions of \$F and \$G.

Hilltop Final Option 5297 was our top pick in the 2016 Hilltop Angus Ranch sale for \$17,000. He was chosen for his phenotype and performance. We really like the maternal power behind this bull as well. In Hilltop's 2017 sale, 5297's dam produced Hilltop Allied 6262 - the \$40,000 top selling, Genex roster member to Hollowtop Angus at Pony, MT.

Herd Bull In The Making!

We have been really happy with the Foundation calves - they have good vigor, good bone and hit the ground running. The heifer calves are just as impressive as the bull calves and we are excited to watch them develop into cows.

Reports from producers who have calved out Foundation daughters have said their udder quality, temperament and mothering ability has been outstanding.

- Big Ribeye bull here!

Thank you for your interest in our offering at the 2019 Nissen Angus Bull Sale. We are extremely grateful to our past customers for your support and look forward to gaining new customers and friends this year. Our sincere thanks to Jeff and Christie for their friendship and allowing us to market our bulls through their annual sale. We also need to thank our parents, Bob and Maureen, for their support of our cowherd.

We are very excited about the 10 bulls we are offering. We think this is the best set of bulls we have raised. These bulls represent the top 50% of our calf crop and are 90% AI sired. 7 of these bulls are sired by SAV Renown 3439 and we are very impressed with the muscle and performance of these bulls in a moderate package. We are also very excited for the easy fleshing, good footed Renown females with sensible mature size and milk.

It has been a busy year for us, with Lane graduating veterinary school from Washington State and Scott graduating in Engineering from Montana Tech. Lane and Taryn also welcomed their first child, Chancin, in May. Thanks again! We look forward to seeing you on sale day and if you have any questions please give us a call.

If you've seen us haulin' cattle or going down the road
 You've seen us pullin' Ol Blue, usually packed with a load
 She's been with us through a lot and could tell you a few tales
 But she pulls through when we need her, it never fails

Each year we wonder if it could possibly be her last
 She's not quite as spry as she was in the past
 Truth be told, this year she gave us a run for our money
 It created some excitement and wasn't one bit funny

We were weaning and hauling bulls down to Hould's feedlot
 On the first load of the day, something seemed to get caught
 Before we knew it, the back door was clear off its hinge
 We started yelling words at each other that might make a sailor cringe

So there we stood on each end, holding it like a puzzle piece
 This was gonna be a challenge, not your typical catch and release
 But we had to get it shut, there was no arguing about that
 With a load of bulls in the trailer, I hoped they'd stay where they were at

In case you were wondering, we got it back in its place
 Patient calves and strong arms were our saving grace
 It sure wasn't pretty, and some words were said again
 As we headed down the road without much of a grin

Then wouldn't you know it, on the very last load
 We shut the middle door, and that saga started to unfold
 It appeared to be busted, hadn't been used in years
 As I stared in disbelief, I was awfully close to tears

The welds had seen better days, and it didn't look good
 So we latched it on one end as best as we could
 Then rigged up a rope on the busted up side
 Headed back down the road - locked, loaded and tied

You can't make this shit up, is all I will say
 I was so glad to park her at the end of the day
 It seems funny now; we can look back and smile
 But Ol Blue might be retired, at least for awhile!

4541 was Schmitt Angus's pick at the 2015 Shipwheel Cattle Company Sale. 4541's feet are as good as you will find, he's an excellent breeder, and his calves have a lot of vigor. We calved his first heifers this spring, most of them commercial, and he is a definite feet, udder, and disposition improver. The heifers really look to be outstanding cows. Owned with MY Angus.

Client Testimonial

"We were searching for a new bull to use on our cows, something that we could use for a clean up bull, but sire calves that would still weigh up compared to the earlier born AI calves.

We purchased NA Registry 547 in the 2016 sale and have been pleased with his calves the last few years. They have comparably weighed up with the earlier born AI calves at weaning. The bonus has been the bull calves we've marketed. They are a favorite sire group to those that see them. They maintain a favorable frame size, muscling and have performed well for us at Treasure Bull Test. Last year a top performing son maintained an ADG of 4.4 and this year 4 sons have averaged over 4 lbs for the first 90 days! We are pleased with how the bulls have done in such a competitive group of bulls from many performance based ranches.

We appreciate the customer service and friendship we've built with Jeff and Christie. It's refreshing to find a program that meshes well with your own. We will definitely look at their program the next time we are bull shopping."

A Special Thanks....

We are so fortunate to be surrounded by family and friends that are willing and ready to help whenever we give them a call. We appreciate all they do for us and our kids. We could not do what we love to do without them.

Alan & Rachel Weaver - Christie's parents have helped us out a great deal in the past few years. Whether it is taking the kids for the weekend or helping work cows, they never turn us down when we ask. Life is always good at Grandma and Grandpa's!

Mike Nissen - Jeff's brother keeps everything going at the farm in Harlem all year round. We can't thank him enough for all he does for us.

Dennis Donovan - We've gotten to be good friends with Dennis these past few years. He helps us out with cattle work when we need him and is always good for a laugh or two.

Brad Weaver - Christie's brother is always a reliable source of extra help. From farming, to working cows to helping take pictures, he always takes time out of his busy schedule to help us out and we sure appreciate it.

Bronc Speak Thunder - Bronc is a good friend and great hand to have around. He was in a scary horse accident this past year and we are so thankful for the recovery he has made. Tyson is Bronc's shadow whenever he's around!

Bob & Cindy Berg - Jeff's sister and brother-in-law are always on hand to help with the sale and any other task we ask of them. Cindy's cooking is second to none and we are fortunate to have her and Bob handle the details for the meal and refreshments at the sale. The kids are always excited to see Uncle Bobby and Auntie Cindy!

Jim & Louise Nissen - Jeff's uncle and aunt help in the kitchen during the sale and Jim helps with the cattle when we need an extra hand. The kids always manage to talk them out of some hugs and treats whenever they see them too!

Bill & Duan Drugge - We've been blessed with the opportunity to get to know and work with Bill and Duan and their family. They are like grandparents to our children and we appreciate all they do for us.

Carol March and Samantha Weaver - Our sister-in-laws are always on hand to help out whenever we ask. From sale day food service to watching kids, we are grateful to have them around

Lane, Taryn and Scott - We are excited to have Lane and Taryn back in the area and look forward to watching them grow their family and careers. It's also been fun to see Scott succeed in the career he has chosen and we are anxious to see what his future holds.

*To everyone else that helps out throughout the year and during the sale - thank you!
We appreciate it more than you'll ever know.*

*The mud will wash off
but the memories will last a lifetime.*

THE NEW HD 50K™ FOR ANGUS

MAKE EARLIER, MORE ACCURATE DECISIONS.

THE LATEST ADVANCEMENT IN ANGUS GENOTYPING TECHNOLOGY FROM ZOETIS AND FULLY ENDORSED BY THE AMERICAN ANGUS ASSOCIATION AND ANGUS GENETICS, INC.

Zoetis is pleased to announce HD 50K™ for Angus, a new genotyping platform developed in partnership with AGI for Angus seedstock producers.

New HD 50K™ for Angus replaces i50K™ and the previous version of HD 50K, and represents the latest advancement in Angus genotyping technology.

ZOETIS PROVIDES COMPREHENSIVE GENETIC AND MANAGEMENT SOLUTIONS FOR BEEF PRODUCERS:

- 17 Ph.D. geneticists driving cutting edge research and development as well as field and customer support across the livestock business
- First to market with novel wellness traits in dairy cows and calves
- Development of innovative decision support tools
- Unmatched technical support and customer service

SELECT, MATE AND MARKET ANGUS SEEDSTOCK WITH CONFIDENCE:

- Commercial bull buyers increasingly request GE-EPDs
- HD 50K for Angus tested bull batteries enable Sire Match for GeneMax™ Advantage tested heifers
- Reduce selection and breeding mistakes—with HD 50K™ for Angus

HD 50K™ for Angus: The people, the products, and services you have always relied on.

SQUARE B

MILESTONE 7143

Milestone is sired by the phenotype king and superior female maker, SAV Sensation 5615. Sensation is a SAV Registry 2831 son owned by Herbster Angus Farms and Schaff's Angus Valley. Sensation was the high selling lot in Schaff's 2016 sale for \$650,000

Milestone is a super complete, square made, moderate framed, beautiful fronted stud sire. Look for him to sire the kind of females that you will want in front pasture and sons that will be super complete, well balanced with plenty of extension and loaded with plenty of top and hip.

Milestone's dam is the famous Eura Elga of Conanga 9109. Her impressive progeny include Connealy Black Granite, the \$80,000 feature at Connealy's 2012 spring sale, and a leader in registrations. She also produced Connealy Western Cut, the \$70,000 feature of the 2013 Connealy spring sale and Connealy Concord, the \$100,000 feature of the 2016 Connealy spring sale.
