ABSENTEE BIDDING

Absentee bidding can be made in confidence with any representative, the auctioneer, online at NorthernLivestockVideo.com or directly with Nissen Angus. We will also have phone representatives available on sale day as well if you prefer to bid over the phone.

Online and phone bidding available at
www.northernlivestockvideo.com
See page 2 for instructions.

SIGHT UNSEEN GUARANTEE

We are confident that you will be happy with any absentee purchases you make. However, if for any reason you aren't satisfied upon delivery, you are not obligated to own the bull. **We guarantee 100% satisfaction on all purchases.**

INSPECTION

The bulls are on feed and available for viewing at Hould Bull Development Center, located at 5867 Hwy 363 southwest of Malta, MT. They will be available for inspection at the Blaine County Fairgrounds in Chinook, MT starting the afternoon of Monday, April 1st.

FIRST SEASON BREEDING GUARANTEE

Bulls are guaranteed to be sound and healthy breeders with a first breeding season guarantee. Breeding season is defined as the first 60 days following turnout. All bulls selling will be given 50% of the value of the injured bull minus salvage value as credit in a future sale or towards a replacement bull if one is available. **Please contact us as soon as possible should an injury occur.**

VIDEOS OF THE BULLS ARE AVAILABLE AT

www.nissenangus.com
www.northernlivestockvideo.com

HEALTH

All bulls have been semen tested and given a complete breeding physical by Dr. Brock Aiton of Aiton Veterinary Services, (406)390-5029. They are current on immunizations, have been vaccinated with Fusoguard for footrot and tested negative for BVD-PI.

TERMS AND CONDITIONS

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the auction block take precedence over the information in this catalog. Settlement must be at time of sale unless prior arrangements have been made with Nissen Angus.

SALE ORDER

Bulls will sell in catalog order.

RETAINED INTEREST

Nissen Angus is retaining 1/3 revenue share on every bull sold in this sale. This allows for the right to share in the collection of semen and the right to share semen and certificate revenue should the opportunity arise. **Full possession and full salvage value sells on all bulls.**

TRUCKING AND DELIVERY

We will offer free delivery within Montana on all bulls purchased. Further distances will be billed at cost. **Buyers who pick up their bulls at the sale site on sale day or the day after will be given a \$50 rebate per bull.**

PERFORMANCE INFORMATION

EPDs are current as of March 4, 2024. Updated EPDs can be viewed online at www.angus.org. All bulls selling were HD50K tested and their EPDs are genomically enhanced. All bulls were ultrasounded for carcass merit by AAA certified technician, Sonja Gregory.

All bulls selling have genomically enhanced EPDs via Zoetis HD50K testing

ACCOMADATIONS

Chinook Motor Inn 406-357-2248
Bear Paw Court 406-357-2221

AIRPORT

Edgar G. Obie Airport - Located on the west side of Chinook. Please call 406-357-2643 in advance to make arrangements

LIABILITY

All persons who attend the sale do so at their own risk. Nissen Angus and all other sale staff assume no liability, legal or otherwise.

**PLEASE BRING THIS CATALOG
WITH YOU ON SALE DAY**

Hello Fellow Producers!

We'd like to invite you to our **Annual Production Sale on April 3rd at the Blaine County Fairgrounds in Chinook, MT.** The bulls will be available at the fairgrounds for viewing on the afternoon of Monday, April 1st.

The winter of 2022-23 provided us with adequate snow pack - creating spring runoff to fill the dry pits and reservoirs in northern Blaine County. There was enough moisture in the ground last spring to get the grass started, but the initial spring rains ended in May and the drought persisted. Our weaning weights reflect the results of prolonged drought conditions and were significantly lower than normal. We continue to put strict demands on our mother cows, believing that quality over quantity is the best equation for a successful program.

As we look to rebuild after the drought, we are keeping our focus on mother cows that exhibit performance, structural correctness, strong maternal traits and carcass ability. We are working hard to provide our customers with low maintenance, highly functional cattle that perform and pay in pounds. Our customer's success is a direct reflection of our program's success and we place a big emphasis on making sure you are happy with your purchase.

All the bulls have been parent verified, carcass ultrasounded, performance and fertility tested. To provide you with the most predictable and accurate selection tools, **we have also HD50K tested every bull in our sale offering.** These genomic-enhanced EPDs offer increased predictability and valuable insight for the selection process. We have continued to ultrasound our bulls for carcass merit. We feel it's important to provide that data along with all the other selection tools as it gives you a complete representation of each bull's full potential.

The bulls are on feed at Hould Bull Development Center west of Malta, MT and available for you to view at any time. The bulls have been fed a high roughage ration to ensure soundness and longevity. All have been given Fusogard to help prevent footrot and tested negative for BVD-PI. Our sincere thanks goes to Bruce, Linda, Lance and their crew for the great care they give these bulls. They are great to work with and always accommodate everyone's schedules and deadlines. It gives us a great peace of mind knowing our bulls are in such great hands.

We are blessed to be surrounded by family and friends who support us. We could not do what we love to do without them. Sale time is one of our most favorite times of the year and it is truly a family affair. We enjoy catching up with friends and family on sale day and invite you to join us for lunch and stay for our "friends and family" social after the sale.

Our sincere thanks for your friendship and support throughout the years - we look forward to working with you for many years to come. Please feel free to call us if you would like additional information on the bulls or if you have any questions about our program. Please stop by and view the sale offering and join us for lunch on April 3rd. See you then!

Jeff, Christie, Charley & Tyson Nissen

BIRTH WEIGHT & CALVING EASE

University studies in Wyoming and data from Montana and Colorado lend credence to the following conclusions:

1. The birth weight itself influences calving ease by 65%.
2. The female has 60-70% influence on birth weight of her calf.
3. The bull has 30-40% influence on birth weight of his progeny.
4. Pelvic measurement and angle as well as the shape of the calf have 35-40% influence on calving ease.
5. Length of gestation greatly affects birth weight. A fetus can gain over one pound per day in the last days of gestation.
6. Weather and temperature the last 30 days affect the length of gestation.
7. Size and maturity of the cow influence calving ease.

Most commercial producers do not take birth weights. Guessing is as inaccurate as driving with a broken speedometer – what's thought to be 55 mph may in fact be 65 or 70 mpg, and what's thought to be 70-80 lb. may actually be 80-90 lb. Remember, everything is relevant. Increased growth, frame and performance will increase BW. A longer-bodied calf will weigh more. If a calf is expected to have genetics for growth, it will display this prior to birth as well as after. As a rule of thumb, it takes a calf weighing 85 lb. at birth to finish at 1200-1250 lb. A cow should easily give birth to a calf weighing 8% of her own body weight. Thus, a 1200 lb. cow should give birth to a 96 lb. calf with ease.

Continued selection for light birth weights will ultimately reduce the mature sizes and performance of your cattle.

The statement above has been published countless times in numerous catalogs and publications and we feel it does a great job illustrating the whole picture in regards to birthweight and calving ease.

While birth weight is always something to take into consideration, we feel that calving ease should be utilized just as much when selecting a bull. Those higher birthweight calves that calve easy and unassisted, thrive from the start and are at the top of the pack come weaning time.

Those are the ones that bring you the most bang for your buck when you are getting paid by the pound.

ONLINE & PHONE BIDDING OPTIONS

Can't make it sale day? We've got you covered! We know how hard it can be this time of year to get away from the place to make it to town or how unexpected weather can throw a wrench into your plans last minute. We would love to see you at the sale, but want you to know we have the option of online bidding to give you the opportunity to purchase bulls at your convenience from just about anywhere!

Northern Livestock Video has an online desktop and mobile friendly bidding platform. They also have a phone bidding option if you are not comfortable bidding online and would like to be on the phone with a representative.

Online Bidding:

1. *Pre-Register at least one day prior to the sale.*
2. *Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".*
3. *Doing this will prompt you to create an account, after which you will fill out a bidder approval application.*
4. *Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.*
5. *On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!*

Google Chrome is the preferred web browser for viewing Northern Livestock Video Sales

Please visit www.northernlivestockvideo.com for instructions on downloading and using the mobile bidding app.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

Phone Bidding:

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.

1. *To register with NLVA call 866-616-5035 Before Sale Day.*
2. *View the Online CATALOG and VIDEO CLIP of each BULL selling at www.northernlivestockvideo.com.*
3. *Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.*

Northern Livestock's Sale Day Bid Line: 1-406-245-0889.

This sale represents our third calf crop out of Resilient. He sires calves that are consistent in type with calving ease, strong carcass traits and excellent foot structure. The females are moderate, deep bodied with adequate milk and strong maternal instinct. After using Resilient for 3 years, we found out this year that the bulls can get a little worked up if pressured, left alone or surprised in any fashion. We have had no issues up until this calf crop and the females have been respectable, maternal mothers. Lot 18 and 20 are more busy than what we typically like to see and we wanted to bring awareness to that.

We utilized Exclusive to tie in uniformity with LD Capitalist himself. We liked his look - deep body, powerful phenotype and structural correctness. We were impressed with his individual performance and we have been pleased with his offspring - he throws calves that catch your eye and have the "keeper" look. A sound carcass bull as well, he checked all the boxes for us. We calved our first daughters this spring. They have a calm demenour and excellent maternal instinct.

Hilltop Final Option 5297

Keep replacements out of this guy!

Lot 1's dam, NA Samantha 775, is a solid producer for us with 4@105. She stands on good feet with a strong top and depth of rib.

Lot 1's maternal sire, Hilltop Final Option 5297 was a bull we purchased from Hilltop Angus in Denton, MT. He was long spined, deep ribbed bull who left us with a solid set of females. His full bodied daughters stand on good feet, have good udders and good maternal instinct.

MAKE YOUR CATTLE STAND OUT

You've made a significant investment in your genetics, but does the market recognize that? Stand out by differentiating your cattle with AngusLinkSM programs: AngusVerifiedSM and the Genetic Merit ScorecardSM. AngusVerified validates your calves are sired by registered Angus bulls and make your cattle stand apart from other black hides on sale day. The Genetic Merit Scorecard gives buyers the confidence they need to pay more for your quality calves.

Users of the AngusLink programs earn **\$13-15/CWT PREMIUMS** on average. Give us a call, and learn how to claim your competitive edge with AngusLink value-added programs.

The Genetic Merit Scorecard and AngusVerified are administered by IMI Global.
