# ANNUAL PRODUCTION SALE

## Wednesday - April 5, 2017

### Blaine County Fairgrounds • Chinook, MT

#### Lunch at 11:30 • Sale at 1:00

#### SALE DAY PHONES

Jeff's Cell	406-949-1101
Christie's Cell	406-262-4125
Lane's Cell	406-390-2275

#### SALE DAY CONFERENCE CALL

Bill Pelton will be conducting a sale day conference call for any buyers that are unable to attend the sale. Please see the ad below for instructions.

#### AUCTIONEER

Roger Jacobs	406-698-7686
--------------	--------------

#### SPECIAL REPRESENTATIVES

Kurt Kangas	406-366-4190
Jeff Thomas	406-581-8859
Bill Pelton	406-671-5100

#### SIGHT UNSEEN GUARANTEE

Absentee bidding can be made in confidence with any representative, the auctioneer or directly with Nissen Angus Inc. or Schmitt Angus. We guarantee 100% satisfaction on all purchases.

#### INSPECTION

The bulls are on feed and available for viewing at Hould Feedlot, located at 5867 Hwy 363 southwest of Malta, MT. They will be available for inspection at the Blaine County Fairgrounds in Chinook starting the afternoon of Monday, April 3rd.

## Sale Day Conference Call

*Our goal is to have you in the seats but if you can't make it on sale day, we're fixin' to get you "on the line!"*

Easy as 1 ~ 2 ~ 3

Call Breeder in Advance To . . .

1. Pre-register for your buyer number
2. Receive the toll free call in number & pin
3. Get last minute instructions for the call

**Pelton**  
**Livestock**  
Marketing & Consulting

www.billpelton.com  
bill@billpelton.com | 406-671-5100

#### HEALTH

All bulls have been semen tested and given a complete breeding physical by Dr. Bob Schmitt of Chinook Veterinary Clinic, (406)357-2850. They have had all necessary immunizations and vaccinated with Fusoguard for footrot, Maxi/Guard for pinkeye and tested negative for BVD-PI.

#### TERMS AND CONDITIONS

This sale is being conducted under the suggested sale terms and conditions adopted by the American Angus Association. Announcements from the auction block take precedence over the information in this catalog. Settlement must be at time of sale unless prior arrangements have been made with the owners.

#### SALE ORDER

Bulls will sell in catalog order.

#### RETAINED INTEREST

Nissen Angus Inc. and Schmitt Angus are retaining 1/3 revenue share on every bull sold in this sale. This allows for the right to share in the collection of semen and the right to share semen and certificate revenue should the opportunity arise.

#### TRUCKING AND DELIVERY

We will offer free delivery within Montana on all bulls purchased. Further distances will be billed at cost. Buyers who pick up their bulls at the sale site on sale day or the day after will be given a \$50 rebate per bull.

#### PERFORMANCE INFORMATION

EPDs are current as of March 6, 2017. Updated EPDs can be viewed online at [www.angus.org](http://www.angus.org). All bulls selling were i50K tested and their EPDs are genomically enhanced. The spring bulls were ultrasounded for carcass merit by AAA certified technician, Sonja Gregory.

#### ACCOMADATIONS

Chinook Motor Inn	406-357-2248
Bear Paw Court	406-357-2221

#### AIRPORT

Edgar G. Obie Airport - Located on the west side of Chinook. Please call 406-357-2643 in advance to make arrangements

#### LIABILITY

All persons who attend the sale do so at their own risk. Nissen Angus Inc, Schmitt Angus and all other sale staff assume no liability, legal or otherwise.

#### VIDEOS OF BULLS ARE AVAILABLE AT

## *Welcome Fellow Producers!*

Although 2016 brought a lower calf market and some challenging weather, 2017 is showing promise and we are anxious to see what the year has in store!

We are very happy with this year's set of bulls. This year the spring calves were weaned on October 1st and as a group averaged over 750 lbs - doing so on just native grass and mother's milk - NO CREEP. As we work on continuing to grow our herd, we are focusing on mother cows that exhibit performance, structural correctness, strong maternal traits and carcass ability - all in a low-input, practical package. We are working hard to provide our customers with low maintenance, highly functional cattle that perform and pay in pounds. Our customer's success is a direct reflection of our program's success and we place a big emphasis on making sure our customers are happy with their purchases.

**Our sale will be held at the Blaine County Fairground's Commercial Building on April 5, 2017. The bulls will be available for inspection at the fairgrounds starting on the afternoon of Monday, April 3rd.**

To provide you with the most predictable and accurate selection tools, we once again submitted i50K testing on all the bulls being offered in the sale. These genomic-enhanced EPDs offer increased predictability and valuable insight for the selection process. Along with the i50K test, all the spring bulls were scanned for carcass merit.

The past few years we have started putting our actual weaning weights along with listing the 205 day weights. Although the Adj 205 weight is a good comparison tool, we feel the actual weaning weight gives a more accurate and real world representation of individual performance. Commercial cattlemen sell their calves off an actual weaning weight, not an Adj. 205 and we think that information should be available on the bulls you buy.

With that being said, it is important to understand the difference in a fall calf's weaning weight compared to a spring calf's. We wean our fall calves the beginning of March, which means they are roughly two months younger than the spring calves are at weaning time. Along with being significantly younger, they have also had to endure the winter months without any extras. They are raised on cured-out grass along with mother's milk and hay - NO CREEP. Therefore, as a group, the fall calves' weaning weights are noticeably less and understandably so, given the environmental factors, growth patterns and ages.

The bulls are on feed at Hould Feedlot in Malta, MT and available for you to view at any time. All the bulls have been performance and fertility tested. The bulls have been fed a high roughage ration to ensure soundness and longevity. All have been given Fusogard to help prevent footrot, Maxi/Guard for pinkeye and tested negative for BVD-PI. Bruce, Linda and crew do an amazing job and we are fortunate to have them taking care of our bulls.

Lane, Taryn and Scott Schmitt of Schmitt Angus continue to be our special guests and offer some of their own bulls for sale. Barb Korenjak of Corey A Ranch in Oregon continues to partner on some cows with us and any bulls resulting from those cows will be offered in the sale. The Schmitt and Korenjak families are good friends and we are fortunate to have the opportunity to work with them.

We are blessed to be surrounded by family and friends who support us. We could not do what we love to do without them. Sale time is one of our most favorite times of the year and it is truly a family affair. We aren't always able to get together as a family on holidays, but every year our family comes together during sale time. Everyone does their part in helping us put on the sale and it ends up being our version of holiday family time. We enjoy catching up with friends and family on sale day and invite you to join us for lunch and stay for our "friends and family" social after the sale.

Please feel free to call us if you would like additional information on the bulls or if you have any questions about our program. We love to chat - especially about our cattle and our kids. Chances are you won't hear about one without hearing about the other!

Our relationship with you is one thing we value and do not take for granted. Our sincere thanks for your friendship and support throughout the years - we look forward to working with you for many years to come. Please stop by and view the sale offering and join us for lunch on April, 5th. See you then!

*Jeff, Christie, Charley & Tyson Nissen*

## Bull Mortality & Loss of Use Insurance

Nissen Angus has arranged for  
Novich Insurance Agency  
to make available Mortality/Loss of Use Coverage for  
Nissen Angus bulls and Schmitt Angus bulls sold in the  
April 5, 2017 sale.

Terms are as follows:

Values	Not to exceed purchase price
Term	12-month policy term
Premium	10% of the purchase prices for both mortality and loss of use 5.5% of the purchase price for full mortality only <b>NISSEN ANGUS PAYS HALF OF THE PREMIUM FOR YOU</b>
Coverage	100% mortality payout 80% loss of use claim payout

## Donation Lot

Each year we pick a certain lot in the sale as our donation lot. We donate a percentage of sales from that lot towards a cause that is near and dear to our hearts.

Jeff lost both his parents to cancer and throughout the years, we have lost other loved ones to the disease. We have also witnessed other family members and friends battle and win their fight with cancer. We want to do our part to support the fight against cancer and finding a cure.

***This year's donation lot is Lot #10.***

We have chosen the Blaine County Cancer Support Group as the recipient this year. The group offers a chance for survivors, caretakers and anyone that has been affected by the disease to come together and support one another. The group meets once a month and frequently has guest speakers, cancer survivors and others share their stories and experiences.

# WHY WE TEST WITH i50K FROM ZOETIS

Powered by i50K™ from Zoetis, our cattle sell with genomic-enhanced expected progeny differences (GE-EPDs).

With GE-EPDs, we're proud that customers like you can minimize risk in their investment — and add predictability and dependability to your cattle.

The benefits of buying i50K-tested bulls and heifers goes much farther than this, however. You'll know early on what that animal is likely to transmit to its offspring and potential for performance in the feedlot and on the rail. And, you can verify the sire of calves and replacement heifers produced by the bulls you buy from us — through GeneMax® Advantage™ and GeneMax® Focus™ — to make better breeding and management decisions down the road.

Knowing an animal's potential. Continuous progress of your herd. That's why we test with i50K.

Number of progeny records in conventional genetic evaluation needed to achieve the same accuracy as GE-EPDs powered by i50K

Trait	Progeny Equivalents
Heifer Pregnancy (HP)	22
Calving Ease Direct (CED)	24
Birth Weight (BW)	13
Milk	14
Docility (Doc)	11
Scrotal Circumference (SC)	16
Weaning Weight (WW)	19
Yearling Weight (YW)	24
Dry Matter Intake (RADG)	17
Yearling Height (YH)	12
Mature Weight (MW)	16
Carcass Weight (CW)	7
Marbling (Marb)	8
Ribeye Area (RE)	11
Fat Thickness (Fat)	12

**BW:** Actual birth weight expressed in pounds.

**Actual WW:** Actual weaning weight taken right off the cow, expressed in pounds.

**Adj 205:** Standardized weaning weight adjusted to calf age of 205 days and mature dam equivalent.

**Adj. 365:** Standardized yearling weight adjusted to calf age of 365 days and mature dam equivalent.

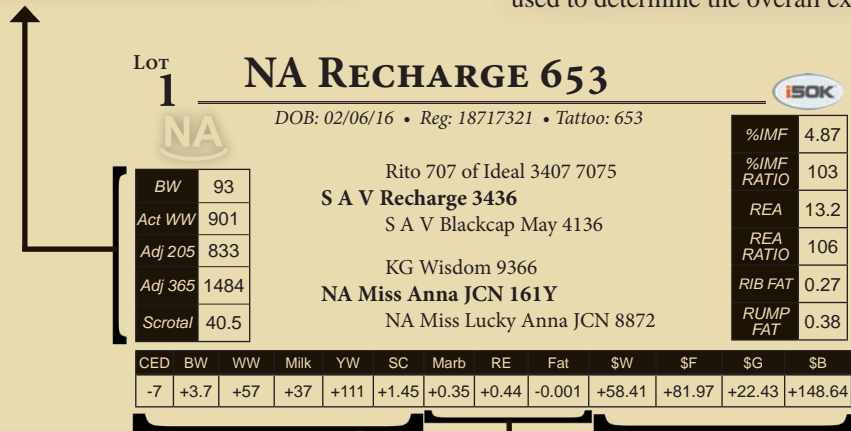

**Scrotal:** Actual scrotal measurement, expressed in centimeters, taken 3/1/2017.

**%IMF:** Percentage of fat in the ribeye area muscle (similar to marbling). The ultrasound field technician collects four images and the values generated by the interpreting software are averaged for an overall %IMF. Marbling directly contributes to beef palatability.

**REA:** Area of the longissimus muscle, measured in square inches. The trait is moderately to highly heritable and gives an indication of overall carcass muscling.

**Rib Fat:** An external fat measurement taken between the 12th and 13th ribs, measured in inches.

**Rump Fat:** An external measurement taken between the hooks and pins, measured in inches. The rump fat and rib fat measurements are used to determine the overall external body fat.

**Marb EPD:** Expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**RE EPD:** Expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

**Fat EPD:** Expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th & 13th ribs) of a sire's progeny compared to progeny of other sires.

**Calving Ease Direct (CED):** Expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**BW EPD:** Expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**WW EPD:** Expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Milk EPD:** Is a predictor of a sire's genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

**WW EPD:** Expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**SC EPD:** Expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

**\$Value Indexes:** Reported in dollars per head, where a higher value is more favorable.

**Weaned Calf Value (\$W):** Expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk and mature cow size.

**Feedlot Value (\$F):** Expressed in dollars per head, is the expected average difference in future progeny performance for postweaning merit compared to progeny of other sires.

**Grid Value (\$G):** Expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

**Beef Value (\$B):** Expressed in dollars per head, is the expected average difference in future progeny performance for postweaning and carcass value compared to progeny of other sires. The \$B combines the contributions of \$F and \$G.

We liked the big top and powerful phenotype that Leupold has to offer. His pedigree is stacked with maternal greatness. Sired the sale-topper at the 2015 Gartner-Denowh sale and three others in the top five sellers. His calves were the top ratioing at weaning time and have had proven performance at the feedlot.

We have chosen the Blaine County Cancer Support Group as the recipient this year. The group offers a chance for survivors, caretakers and anyone that has been affected by the disease to come together and support one another. The group meets once a month and frequently has guest speakers, cancer survivors and others share their stories and experiences.

In memory of loved ones we've lost and in honor of loved ones who are fighting the battle and winning!

HARB EBONY ERICA 912 - DAM TO LOT 14

The three great essentials to achieve anything worthwhile are: hard work, stick-to-itiveness and common sense."

- Thomas Edison

Thank you for your interest in our offering at the 2017 Nissen Angus Bull Sale.

We are extremely grateful for your past and future support. All our friends and customers have been a big part in allowing us to continue to grow from that first heifer in 2002. Our sincere thanks goes to Jeff and Christie for their friendship and allowing us to market our bulls through their annual sale. We also need to thank our parents, Bob and Maureen, for supporting us through the day to day activities as I attend Washington State and Scott attends Montana Tech.

We are very excited about the 9 bulls we are offering this year. Be sure to notice the two sets of 3 ¼ brothers in the catalog. It's taken over five years of planned breeding to be able to offer this much uniformity to you. The opportunity is there to add consistency to your calf crop. 8 out of 9 bulls rank in the top 5% of the breed for \$Weaning. We think this index is the most important EPD for the commercial cattleman and continue to select bulls that excel in that area.

We strive to have fertile cows with longevity, perfect feet and udders, moderate frames, good maternal instinct, fleshing ability, performance, docility, and added carcass value.

We look forward to seeing and talking with you on sale day and if you have any questions please give us a call.

- Ranks in the top 3% of the breed for Scrotal and top 15% for CED, BW, Milk and top 20% for \$W
- Dam's Production: 9 BR@97, 9 WR@102, 7 YR@102, 12 %IMF@98 and 12 REA@104
- 3/4 brother to Lots 19-23

*Lots 19-23  
 Full Flush Brothers*

Here's your chance to purchase full flush brothers and add thickness, uniformity and muscle to your herd.

Charlo sons were a hit at the Schaff Angus Valley sale earlier this year. They claimed the top four selling spots, with those lots averaging \$523,750 - the top lot selling for \$750,000!

Dam is a BT Right Time 24J, the popular AI sire known in the industry as the "Cow Maker"

She posts 9 BR@97, 9 WR@102, 12 %IMF@98 and 12 REA@104

COREY A ERICA 24J 558 - DONOR DAM OF LOTS 19-23

*Thank you for coming to the sale! We appreciate your support and value your business.  
We hope 2017 proves to be a successful year for your operation. See ya next year!*

*A Special Thanks....*

We are so fortunate to be surrounded by family and friends that are willing and ready to help whenever we give them a call. We appreciate all they do for us and our kids. We could not do what we love to do without them.

- Alan & Rachel Weaver** - Christie's parents have helped us out a great deal in the past few years. Whether it is taking the kids for the weekend or helping work cows, they never turn us down when we ask. Life is always good at Grandma and Grandpa's!
- Mike Nissen** - Jeff's brother keeps everything going at the farm in Harlem all year round, lends a hand with the cows when need be and helps feed in the winter. He's even taken the kids with him in the tractor - you're the best Uncle Mike!
- Jim & Louise Nissen** - Jeff's uncle and aunt watch the kids from time to time and Jim helps with the cattle when we need an extra hand. The kids love spending time at Auntie and Uncle's.
- Bill & Duan Drugge** - We've been blessed with the opportunity to get to know and work with Bill and Duan, their family and their operation. They are like grandparents to our children and we appreciate all they do for us.
- Brad Weaver** - Christie's brother is always a reliable source of extra help. From farming, to working cows to hanging sale posters, he always takes time out of his busy schedule to help us out.
- Bob & Cindy Berg** - Jeff's sister and brother-in-law are always on hand to help with the sale and any other task we ask of them. Cindy's cooking is second to none and we are fortunate to have her and Bob handle the details for the meal and refreshments at the sale. The kids are always excited to see Uncle Bobby and Auntie Cindy!
- Carol Murch and Samantha Weaver** - Our sister-in-laws are always on hand to help out whenever we need them. From sale day food service to watching kids, we are grateful to have them around
- Lane, Taryn and Scott** - We put these three to work every chance we get. They are great help and good company.

*To everyone else that helps out throughout the year and during the sale - thank you!  
We appreciate it more than you'll ever know.*
